mitchinerfamily1@gmail.com

London, SE5 8EG

### Personal profile

I am a hardworking and dedicated person with an interest in mathematics and computing, particularly interested with automation and machine learning. I work well in a team environment and respond well to new problems, demonstrated by my time as an Explorer scout and Young Leader, but I also have the capability to act independently.

### Competencies

#### Problem solving

Through completing numerous programming projects both in school and in my free time, I have experience with identifying and solving problems.

#### Leadership

As an explorer scout and young leader I have often had to put a team I am leading into a functional state or take on leadership roles to organise and guide the younger scouts.

#### Creativity

I have always been a creative person. I have in my free time been writing a fantasy story for my own enjoyment and I run a YouTube channel where I sometimes post animations.

### Work experience

January 2020 - Present

#### Babysitting - General Area

I don't have much work experience aside from some Babysitting for neighbours and family, which has the responsibilities of having to learn to entertain children and look after them safely

### Education

September 2019 - June 2021

#### GCSE's - The Charter School North Dulwich

7 9's, 4 8's and one 7 GCSE grades, including a 9 in Computing, Further Maths and History

### Other interests

#### Piano

I play the piano and currently am working towards completing Grade 5 ABRSM.

#### Hiking

I enjoy going hiking with my family and with Scouts, having walked in the Pennines, Snowdonia and the 1066 route from Pevensey Bay.

#### Programming

Whilst the focus changes, I always have a programming project I am working on. Recently, I finished a Spreadsheet program on Python and I am currently working on a random terrain generator in c# and implementing it using unity.

#### Explorer and Young Leader

I am an Explorer Scout for the Phoenix Explorer group and I am an active Young Leader at the 5th Camberwell Scout group. I learn useful outdoor and life skills and I build my teamwork through group activities.
