Alexander Mitchiner

alexander.mitchiner@gmail.com
London, England

Personal profile

I am a hardworking and dedicated person with an interest in mathematics and computing, particularly simulations and software. I work well in a team environment and I am always eager to tackle new problems.

Skills

Problem solving
Through completing numerous programming projects both in school and in my free time, I have experience with identifying and solving problems.

Leadership
As an Explorer scout and Young Leader I have often had to lead teams in expeditions and activities or take on leadership roles to guide the younger scouts.

Work experience

July 2022 - August 2022	**IT Technician** - Equal Experts A month and a half placement with Tech company Equal Experts. I worked on an internal project to accumulate and manage data within the company, developing a user interface with React and Next.js. I also created an API in Java to manage HTTP requests to and from the database. During this placement I grew my network and, through working with multiple different technologies, my computational skills as well.

Education

September 2021 - June 2023	**A-Levels** - The Charter School North Dulwich Achieved the grades A* A* A* A, with A*s in Maths, Further Maths and Computer Science and an A History.
September 2019 - June 2021	**GCSE's** - The Charter School North Dulwich 999999988887 achieved, including a 9 in Computing, Further Maths and History

Other interests

Piano
I play the piano and have completed Grade 5 ABRSM.

Hiking
I enjoy going hiking with my family and with Scouts, having walked in the Pennines, Snowdonia and the 1066 route from Pevensy Bay. With my brother I used funding from the Mark Evision Foundation to complete a run of the Annandale Way in 3 days.

Programming
Whilst the focus changes, I always have a programming project I am working on. Notable projects include a Spreadsheet Program built entirely with Python and a Procedural Terrain Generator implemented into Unity. I am currently working on a Timetabling Software in C#.

Explorer and Young Leader
I am an Explorer Scout for the Phoenix Explorer group and I am an active Young Leader at the 5th Camberwell Scout group. I learn useful outdoor and life skills and I build my teamwork through group activities.
