SUMMARY

A dedicated student with an interest in technology and finance, I am fast to pick up new software and computational skills. My exposure to the professional world in my prior summer roles allows me to work well in a team and adapt quickly to an evolving environment.

EDUCATION

Imperial College London
MEng Computer Science — *Oct 2023 – Current*

The Charter School North Dulwich
Maths, Further Maths, Computer Science, History - A*A*A*A — *Oct 2021 – June 2023*

EXPERIENCE

Software Engineer — July 2023 – June 2023
Equal Experts — *London*
- Developed a website and API to interact with an internal Neo4j database
- Worked primarily in React.js for the frontend and Java for the backend

Data Science Intern — Oct. 2023
Freemavens — *London*
- Built a Trends tool in Python to aid analysts in market research
- Tool focused on pulling data from keywordtool.io and Google Trends

PROJECTS

StudyReal. | *Kotlin, Android, Firebase* — February 2024
- Developed an Android App to encourage work through sharing studying data with friends
- Used Firebase to manage user data
- Placed 2nd in the Kotlin Category for ICHack 24

VSim | *C#, Microsoft WPF* — Sep 2022 – Apr 2023
- Simulated the spread of a virus on a global scale using mathematics and randomness
- Spread defined by user-based parameters and displayed on a dynamic map of the globe
- Developed as part of the Computer Science A-Level NEA, scoring 62/70

TECHNICAL SKILLS

Languages: Java, Kotlin, Python, JavaScript, HTML/CSS, C#, Haskell
Frameworks: React, Node.js, Flask, JUnit
Developer Tools: Git, Docker, VS Code, Visual Studio, IntelliJ
